

The Critter Capers Pet Sitting 25 Point Checklist

You have probably never given much thought to just how much time and effort you put into your pet's good health and happiness. I have!

When you are gone, many things have to be done on a daily basis to make certain your pets are safe, secure, comfortable and happy. I go through this 25 point checklist every time I visit with your pets.

1. Clean and Sanitizing to reduce illness & disease
2. Deactivating your security system
3. Bringing in the newspaper
4. Bringing in the mail
5. Giving each pet clean, fresh, water
6. Giving each pet the proper amount and correct kind of food
7. Making sure each pet eats their food
8. Checking on the welfare of shy or reclusive pets
9. Restoring the supplies in the proper place
10. Giving treats (if they are allowed)
11. Cleaning up any "accidents" or messes that may occur
12. Watering plants (indoor and out)
13. Having play time with each pet
14. Cleaning the litter boxes
15. Maintaining a comfort level in the home
16. Checking all internal and external doors and windows
17. Monitoring the condition of the home
18. Ensuring the house fence perimeter is secure
19. Changing the lighting arrangement
20. Making sure pets are in their proper place
21. Making notes for the owners
22. Administering medication if needed
23. Checking each pet's condition
24. Re-locking the house
25. Activating the security system

You do most of these things automatically when you are home. Isn't it comforting to know that someone is going to go through a checklist each day and do them for you while you're away?
